Faith Academy Charter School After-School Tutoring

The Faith After-school Tutoring sessions began at our school on November 1, 2021. Every Monday afternoon, 1:00-3:30, we have three retired, elementary teachers who teach in this tutoring program to help students further develop their reading skills. This worthwhile program is possible through funds from the ACCESS grant that was awarded to our school this past summer. After a few minutes to have refreshments and a break from the regular school day, Mrs. Miller, Ms. Green and Ms. Laws provide additional skills and practice to a small group of students each Monday afternoon.

We began the tutoring program with our third grade students since they will be taking End-Of-Grade tests for the first time next spring. Data from the state required Beginning-Of-Grade Reading assessment, given to all third graders during the first 15 days of school this year, was used to determine eligibility for this extra tutoring opportunity. Our tutors also work in third grade classrooms every Monday and Wednesday to support reading and math instruction.

In the coming weeks, the After-School Tutoring opportunity will move to fourth grade students who could benefit from a little additional help after school while the tutors continue giving support in the third grade classrooms during the school day on Mondays and Wednesdays.

Many thanks to the tutors who have come on board to help our students and to the students and families who have taken advantage of this extra opportunity.
